SUMMARY

Software Engineer with 2+ years of experience building and maintaining **Java Spring Boot** microservices for production **payment systems**. Skilled in **ISO 8583** payment messaging, **Visa** and **Mastercard** transaction processing, **REST APIs**, **Apache Kafka**, **Redis**, **PostgreSQL**, **OAuth 2.0**, and **Azure** cloud security. Strong background in full-stack development with **React** and **Spring Boot**.

EXPERIENCE

Together Initiatives Ltd Jan 2024 – Present
Junior Software Engineer Dhaka, Bangladesh

- Develop and maintain a production **payment service** handling card transaction flows for **Visa** and **Mastercard** using **ISO 8583** messaging.
- Extend **ISO 8583** message parsing and field mapping to support new payment network requirements and reduce transaction failures.
- Build and maintain **Java Spring Boot microservices** and **REST APIs** for reliable, scalable backend services.
- Implement **OAuth 2.0** authentication with **Azure Active Directory** and secure secrets with **Azure Key Vault**; integrate **LDAP** authentication in Spring Boot applications.
- Improve system performance and reliability using **Apache Kafka** for event-driven processing, **Redis** caching, and **PostgreSQL** row-level locking for concurrent transactions.
- Deliver full-stack features with **React** and **Spring Boot**, and generate **PDF** and **Excel** reports with **JasperReports**.
